Calming cocoon, an evolution of matt black

When matt black first hit the market, it came as part of the minimalist trend. Cool, monochrome spaces have now evolved into a new trend for 2022.

Say hello to soft calming environments with a mix of textures and finishes to create a perfect sanctuary for you to bathe and relax in.

Traditional Toilets Explained...

Our traditional toilets are designed to meet the requirements of your home. Our back-to-wall pans conceal pipework, whilst our close coupled styles save space and expense. If you're looking to create a grand period setting, you'll love how the towering design of our high-level toilets instil regal elegance. Alternatively, our low-level toilets offer timeless style and are especially good for bathrooms with low ceilings.

Practicality or style... why choose?
Our ceramic countertop basins are a great way to get a boutique feel at home. They sit above units and worktops, helping to keep water off the floor. Amplify their look with floating shelves, or instil a semblance of privacy with his-and-her sinks — the choices really are endless.

The Bath Collection

Baths connect you with the inner you. From boutique glamour to Zen-inspired serenity, they're where alter-egos blossom and awaken.

Our Aquanatural collection is designed to create a blissful oasis and is filled with sleek stone finishes that cater to every taste. Or you can lie back and unwind in one of our Aqua Edition baths, which simplify the task of buying a bath through a wide range of shapes, styles and sizes. Whatever your style, you'll find bath-time has never offered so many choices!

aquanatural™

Aquanatural is a collection of solid surface baths, with the look and feel of natural stone. Sleek, minimalist and incredibly durable, they offer easy maintenance and last for many years.

Each Aquanatural bath is supplied with a free cleaning kit.

aqua edition

Aqua Edition baths have a contemporary design mixed with pleasing curves and contours — creating the ultimate bathing experience. From practical single and double-ended baths, to luxury freestanding and whirlpool options, we've got bath-time covered.

Steel

Steel baths are known for being great heat retainers, making them much more economical than acrylic baths. Steel baths are also coated in a white enamel which makes them have a super shiny, perfect white finish. The smooth surface makes it easy to clean too, so maintaining a steel bath is much easier!

With clever crescent designs, the corner bath series are an ideal choice when it comes to maximising space in the bathroom. They easily slot in bathroom corners, provide families with a comfortable place to wash and enjoy bath time. If you like to relax while the bath fills up, you can kill time by perching on the integrated seating areas, which also double up as a space for toiletries. Then simply sit back and unwind in comfort and luxury.

Heating Collection

Comfort and relaxation should continue after you've stepped out of the shower. That means no arctic temperatures, no frozen floors, and definitely no soggy towels. Luckily, our heating has it covered with a choice of radiators, towel warmers and electric heating — giving you a little extra help when it comes to early starts and frosty mornings. Those in trend mode will love our selection of matt and metallic finishes, which require less maintenance, making them suitable for busy family homes. Our stylish variety of heating valves and elements also allow you to accessorise radiators to your taste.

Finding your BTU

A BTU (British Thermal Unit) rating refers to the amount of heat released each hour by a radiator or towel rail. The number specified is the number required to heat your room sufficiently. The higher the BTU, the higher the heat output — a BTU of 5154 (per hour) will accommodate large rooms, while a BTU of 603 is better for heating items found in bathrooms, such as towels.

Electric radiators are operated by a heating element that's measured in watts. Standard elements heat your space at an optimum temperature (usually between 65-80°); while thermostatic elements allow you to set a desired temperature and gradually works up to that temperature in increments.

We recommend consulting your plumber if you're not sure which BTU or heating element is best for your home.

Why choose an aluminium radiator?
Their incredible heat output makes them five times more efficient than steel.

This means aluminium radiators don't have to be switched on for long lengths of time to heat a room as they don't require as much water.

They're also surprisingly durable due to being less prone to rust, extending the life of your heating system.

Brassware

Nothing creates a bespoke look like a statement tap. And with over 50 stunning ranges to choose from, we're confident we can help you find the perfect finishing touch. We want to turn every element of the bathroom into a pampered experience, which is why our brassware collection offers stylish solutions to common peeves, like dripping faucets and hard-to-mix temperatures. Plus, all of our styles are crafted from solid brass and are fitted with ceramic disc technology — giving you durable designs that keep your bathroom's efficiency flowing.

aqua edition

The Aqua Edition collection is a range of designer brassware for all tastes and budgets. Infusing bathrooms with everything from European style to spa-inspired tranquillity, each tap is rigorously tested to ensure a smooth operation, time and time again.

Finding your water pressure

- LP1** Pressure systems lower than 0.1 bar
- LP2** Pressure systems lower than 0.5 bar
- HP1** Pressure systems over 1.0 bar
- HP2** Pressure systems over 2.0 bar
- HP3** Pressure systems over 3.0 bar

We recommend consulting your plumber if you're not sure which water pressure is best for your home.

Move DEMM

Move away from perpendicular lines to reach a new dimension with your brassware. Angled taps are great for bringing life and movement to vanity units.

Maya DEMM

Bridge the gap on low-level sinks with a slanted basin spout. The streamlined Maya Mono has a targeted pointed spout, ensuring water falls smoothly into the sink.

Luxe aqua edition

For those seeking the interior of a luxury hotel getaway, Luxe offers the perfect way to upscale with show-stopping curves, flat edges and tapered detailing. With options for your bath and basin, these taps provide a look that's highly contemporary.

Mode aqua edition

Daring to be different, Mode reinvents the conventional lever tap into a range of luxury bath and basin mixers, easily operated by twisting the tap head. After all, some rules are meant to be broken.

Alto aqua
edition

Sharp, clean and made from sparkling chrome, Alto's contemporary design creates a stand out bathroom look for years to come, with a variety of designs ensuring there's a style to suit your space.

Shower Collection

A luxury shower conjures up different images for everyone. Maybe it's a steam shower, or a rainfall shower head. Or maybe it's a shower that simply stays warm when it's on. Everyone's different... therefore, our shower range suits different needs and tastes. From holistic therapies that offer your own personal spa, to powerful pick-me-ups that leave you ready for the day — the choice really is endless! We've also covered every shower type and offer a range of styles from the leading brands.

Which means the only thing left to decide is your shower style!

Designed to make an on-trend splash, our Sleek shower columns are bursting with style and personality. Natural rain sprays, thermostatic valves and four metallic finishes make these all-in-one showers a must for luxury bathroom spaces.

Create Your Own

If our ready-made showers don't take your fancy, why not create your own design with these stylish mix-and-match separates?

To find your perfect set, simply choose from the following options:

1. 1-way shower valve + 1 wall or ceiling-mounted shower head or +1 slide rail kit
2. 2-way shower valve + slide rail kit + wall or ceiling-mounted shower head
3. 3-way shower valve + slide rail kit + wall or ceiling-mounted shower head + either a body jet or overflow bath filler tap

Please note: wall-mounted shower heads may require a shower arm.

Which shower valve to select...

Shower valves offer two functions: they control the flow of your water and the desired temperature.

- Mixer valves mix the hot and cold water flow. The temperature depends on how far you turn the knob or lever.
- Thermostatic valves automatically regulate your temperature, keeping it consistent if water is being used elsewhere in your property.

1-Way Showers

1-way shower valves connect water to a single shower outlet, usually an overhead shower head or slide rail. All of our 1-way valves feature a single handle that controls both the water flow and temperature.

2-Way Showers

2-way shower valves come with two controls, making it possible to operate two shower functions at separate times. The bottom control turns the water on and off, while managing the temperature. The top acts as a diverter, switching water from one outlet to the other.

Traditional valves are great for paying homage to historic periods. Whatever you choose, you won't go wrong with any of our Holborn valves, which are designed for modern living to help you concentrate on creating your favourite look.

Concealed Thermostatic Shower Valves

1-Way Shower Valves

Our 1-way thermostatic valves are managed with two controls. They still supply a single outlet, but one handle operates the temperature, while the other offers better flow management. All valves are fitted with an anti-scald shut-off device — keeping you safe in the event of no cold water.

Our ready-made packs and columns make finding a traditional shower easier. They include a luxury valve and slide rail, and can be used with fixed, mounted or existing shower heads. It's helpful to remember slide rails are used to hold up your shower head. So, if you have young kids who like to shower unsupervised, opting for a hand shower and adjustable rail will give them extra ease.

Shower trays are an important consideration when planning your bathroom as they have a big impact on the overall look and feel of a shower enclosure. We offer a wide range of trays to suit the shape of your enclosure, made with quality materials and expert engineering.

Our acrylic shower trays have a flexible design that's easy fit to the floor or raise with an Easy Plumb kit. Available in 80mm or 45mm high, they feature a stone resin base that's durable and easy to clean plus anti-slip finish is also perfect for anyone looking for extra care. If you're looking for a more streamlined look, our slimline acrylic shower trays are only 25mm high - meaning there isn't a big step up, perfect for walk-in showers.

Crafted from stone minerals, our luxury stone trays blend the durability of the Great Outdoors, with the feel of natural stone. Both our stone ranges enhance rustic, contemporary and traditional bathrooms with a touch of Mother Nature providing a luxurious spa feel to enhance your showering experience.

Bathroom Lighting & Ventilation

Great lighting and ventilation is important in every room in the house, but it plays a particularly vital role in a bathroom. Choose the wrong light and you wind up going overboard with makeup or shaving in the shadows. Our lighting options are large flush ceiling lights or multi bulb bar lights, which creates a daylight environment no matter the time of day.

What is bathroom zoning?

Light fittings are assigned an 'IP rating' which indicates how much protection they provide against ingress of water. The bathroom area is divided up into 'zones' 0-3 with each zone having a minimum IP requirement that must be met if a fitting is to be installed in this zone.

Walls & Floors

When it comes to creating high impact in the bathroom, it's the details that make the biggest splash. Our Wall collection features items bursting with colour, patterns and textural interest, all designed to take the look of your bathroom to new heights.

You can inject touches of modernity with our new artisan and nature-inspired Aquafloor bathroom flooring, whilst our sustainable Aquawall panels create a seamless wall covering for bathrooms and kitchens.

Bring the outdoors in with our Aquafloor range that encapsulates natural habits and organic tones.

Aquawall featured in Grey Oak

Aquafloor provides a realistic look of stone or wood and is extremely hard wearing and resilient to daily wear and tear. The flooring is warm to the touch and is more sound absorbing than wood, laminate, and ceramic tile flooring. This understated flooring has innovative design features such as the patented 3L triple lock for a sophisticated approach to bringing the outdoors in.

Aquafloor features:

- 100% Water resistant
- Easy to install with drop down and lock system
- UV Resistant
- Suitable for walls
- Simple to cut with utility knife
